## WORK EXPERIENCE

---

**Vectorium Labs** – Full-stack Developer Intern

July 2025 – March 2026

- Collaborated in building a role-based admin dashboard in Next.js for a healthcare management system, designing responsive interfaces used daily by admin and staff teams to manage facilities, resources, and payments.
- Developed 15+ secure REST API endpoints (Express.js, PostgreSQL) covering users, facilities, resources, payments, etc.
- Integrated third-party healthcare API (PCC) for external data synchronization.
- Collaborated in an Agile team using Git and AWS WorkSpaces for development and deployment.

## SKILLS

---

- Languages: JavaScript, TypeScript, Python
- Frontend: HTML5, CSS3, React.js, Next.js, Responsive UI Design
- Backend: Node.js, Express.js, RESTful API Design, Object-Oriented Programming (OOP)
- Databases: PostgreSQL, MongoDB, MySQL
- Tools & DevOps: Git, Docker, AWS (S3, WorkSpaces), Postman

## EDUCATION

---

- Open University of Sri Lanka - Bachelor of Software Engineering Honors 2022-Present  
Expected Graduation - December 2026

## PROJECTS

---

**Hyper Play - Multi-vendor Sports E-commerce Platform** | [GitHub](#) | [Live](#)

- Built a full e-commerce platform with role-based access for customers, manufacturers, and admins, supporting end-to-end order lifecycle management from cart through checkout, payment, production, and shipping.
- Implemented secure JWT authentication with RBAC across all user roles.
- Integrated Stripe (test mode) for payment processing and AWS S3 for media storage; containerized the full application with Docker for deployment.

**Tech Stack:** React, Node.js, Express.js, PostgreSQL, Docker, REST API, Stripe, AWS S3
